

# HEAVY DUTY TAPING KNIVES

200MM/8" AND 300MM/12"

Engineered for smooth, efficient jointing and finishing, the ROUGHNECK Taping Knife delivers a precise balance of flexibility, control and durability for consistently high-quality results. The stainless spring-steel blade provides excellent flex and responsiveness, allowing compound to feather out cleanly and evenly. A hollow-ground blade profile enhances control for refined, streak-free finishing, while the tapered blade design improves access to corners and edges. The integrated hammer end offers a practical on-site advantage, ideal for resetting protruding fasteners without changing tools. A soft-grip handle ensures secure control and lasting comfort throughout extended use. A dependable, professional-grade taping knife built for drywall jointing, patching and smoothing across a wide range of materials.

- Stainless spring steel blade
- Tapered blade
- Hammer end
- Soft grip
